Spring 2011

Howard W. Wells

What is going on in Wisconsin and other parts of the country is a crime. This is an attack on Public Sector workers everywhere. The Executive Board and I joined workers from Wisconsin and NJ at the Union Rally on the steps of the State House in Trenton Friday the 25th of Feb.

Why are Public Sector employees being asked to take the hit when the 'financial emergency' was caused by government mismanagement and greedy Wall Street bankers. Because of the shortfalls in state budgets, which workers did not create, many State govern-

ments now want to renege on current contracts. Some like Wisconsin want to turn back the clock and take away the bargaining rights workers fought and died for years ago.

This is indeed a **War On Workers!** Imagine our Servicemen & women who are putting their lives on the line in other countries so their citizens may have basic human rights – coming home to find out that the basic right to bargain on employment issues has been stripped away.

Now is the time to stand in Solidarity with Wisconsin workers – with all workers and each other to weather this storm. Do not allow State or Local governments to divide us. They want you to quit – to give up – to let them destroy unions and lose your voice at the bargaining table and in the workplace.

It is time for Union members from all areas of the Labor Movement to join together with our allies in the community. We must turn the negative attacks into positive energy, unity and solidarity. Make sure future Teamster Brothers & Sisters will look back on our efforts and thank us for standing tall!
